

CCAAS Bulletin

The Community Consultation and Assessment Team is a free provincial resource to support cases with complex mental health needs. Our team includes a family systems specialist, psychiatrist, psychologist, SLP and OT. [Click here](#) to learn more!

Did you know....

Along with providing assessment and consultation, CCAAS offers professional development workshops. This past winter, our topics included 2SLGBTQI+, Human Trafficking and FASD Assessment and Treatment.

This past November, our team was honoured to present at the annual CMHO conference. We discussed our pivot to a virtual service model and its positive impact on accessibility while maintaining a high quality of service.

Lastly, our team does a lot of work to ensure that children's mental health service providers across the province know about our team and how to access our services. If you are interested in having our coordinators meet with your team, please reach out to sbrowne@yorkhills.ca to set up a virtual visit.

mailing list.

New Connections

A number of our services are delivered virtually and are available to agencies across the province. In the last few months we've supported many agencies including:

- STARRting Point
- Open Doors for Lanark Children and Youth
- Giishkaandago'ikwe Health Services
- Dnaagdawenmag Binnoojiiyag Child and Family Services
- Kenora Rainy River Child and Family Services
- Contact Brant
- Contact Niagara
- Community Services Coordination Network

What They're Saying

“ *Amazing team to work with at York Hills. They were kind, genuine and I really enjoyed the conversation. I felt the team really did get to know and understand the situation deeply. I appreciated their kindness and understanding. I also appreciated their non-judgemental approach.* ”

“ *Professional, respectful & supportive.* ”

Professionals who accessed CCAAS unanimously agreed that information provided by the specialized disciplines enhanced their understanding of the child/youth they are working with.
