

CCAAS Bulletin

The Community Consultation and Assessment Team is a free provincial resource to support cases with complex mental health needs. Our team includes a family systems specialist, psychiatrist, psychologist, SLP and OT. [Click here](#) to learn more!

Meet our Team

Lesley Gorman Lemieux, MA RP, is the Clinical Coordinator and Family Systems Specialist on the CCAAS Team. In her 15-year career, Lesley has been dedicated to helping others see the role families can play within children's mental health. She enjoys opportunities to connect, teach and learn.

- May 2023: Language & Children's Mental Health
- June 2023: Human Trafficking

Email sbrowne@yorkhills.ca to get on the CCAAS Education Workshops mailing list.

New Connections

A number of our services are delivered virtually and are available to agencies across the province. In the last few months we've welcomed many agencies including:

- Children's Centre, Thunder Bay
- Chippewas of Georgina First Nations
- North Eastern Ontario Family and Children's Services (NEOFACS), Timmins
- Valoris, Prescott Russell County
- Rama First Nations
- London Children's Aid Society
- Hamilton Children's Aid Society
- Nipissing Children's Aid Society

What They're Saying

“ Being isolated in a remote Northern Ontario community, we have limited resources and supports. Service providers are overwhelmed, and collaboration can be challenging. This platform served as a beneficial opportunity to objectively speak to reasonable actions that can be taken from all systems to better support and wraparound the family/client. ”

100% of service recipients strongly agreed: I had the opportunity to share my thoughts, concerns and knowledge throughout the consultation.
