Online Parenting Programs (High conflict)	Customer Support Team (866) 504-2883	info@newwaysforparenting.com	www.newwaysforparenting.com	Our Level 1 Co-Parenting class is meant for parents that initially tie their own. It guides their co-parenting relationship to the sake of the children. Our Level 2 Co-Parenting class is meant for parents in continued cases or, if it is typically referred by the court to teach parents the skills to manage their emotions for the sake of the children.	We use asynchronous learning. This means that parents are able to log in at any time and not based on their schedule. Our education uses only materials that are relevant to their decision about taking this approach.	Our programs vary in price starting at \$29.99 to \$179.99. We work with organizations and customize pricing, or an effort to provide classes at a price point that works for their demographic. We do not want the price to be a deterrent for any organization to provide classes. We are able to work with organizations who wish to take on the cost of the class, or do not require a contract.	We do not require any time/length commitment to working with us. Parents are able to log in at any time and not based on their schedule. We do not want the price to be a deterrent for any organization to provide classes. We are able to work with organizations who wish to take on the cost of the class, or do not require a contract.	We offer our classes in both English and Spanish as well as making our classes ADA compliant. Should you require programs in a different language we are open to discussing that option based on that parent's needs. We do have a full time Spanish speaker on staff to assist with customer service issues. This current situation has worked well for over 200K parents to date.	We process a certificate of completion which you are able to use in our courses both after parents successfully complete their final exam with a score of 70% or higher. Parents are welcome to retake the exam at no cost to obtain a passing grade. Parents will continue to have access to their certificate upon completion at any time by logging into their account and going to "Manage Certificate". We are also able to provide a certificate or email the court completed certificate upon request.	This is not currently our business model based on our education and research, we find parents accountable through articles, journals and courses. We also have some constraints and a need to guarantee the authenticity of the parent taking the class.	Because our classes are asynchronous, we ask participants to complete the classes and request that both parents take the class independently. Ideally, both parents would complete the same class at no cost to the organization.	We offer custom class pricing, discounts and free classes at no cost to the organization.	7 am to 7pm PST but we are able to provide 24 hour customer service upon request. We offer several ways for parents to contact us, phone, fax, email and chat and encourage users to reach out with any questions.
